NEW YORK STOCKS.

New York, Feb 17.—There was a falling off in the trading at the stock exfalling off in the trading at the stock exchange to-day. The sales aggregated 154.106 shares, against 179,000 shares yesterday. Irregularity was the chief feature, but the industrials showed a tendency to improve the sharp rise in Tobacco. This stock jumped 3 1-2 per cent. to 72 1-2, and the advance was credited to manipulation. Sugar was erratic, and closed 5-8 per cent. Iower. The reports of fresh competition and realizations by a small pool account for the decline. In the railroad list nothing but Northern Pacific and grangers were firm, while Hocking Valley and the anthracites ruled weaker The first mentioned were bought by foreign houses, about 10,000 being taken.

Hocking Valley fell 1 1 2 per cent on

water The first mentioned were cought by foreign houses, about 10,000 being taken.

Hocking Valley fell 1 1 2 per cent on the revival of the receivership reports. Nothing, however, could be obtained on this score. The losses in the anthracite group were fur less important. Among the Gould stocks Missouri Pacific fell to 19 3-4. Manhattan was feverish, ranging between 86 1-187 3-4. The belief still prevails in certain circles that the directors contemplate a reduction in the dividend rate. This is being used by the bears with some effect against the stock. In the last hour speculation showed firmness on covering of short contracts, but in the final transactions leading bear operators again sold, and the market in consequence left off steady to firm.

There was little news to affect speculation, although believers in high prices attempted at one time to use the reported impovements in the iron and steel trafe to bring up the market for stocks. The falling off in carnings of St. Paul for the second week for February had no influence and less attention was paid to Lexow investigation committee. The usually active stocks show but slight changes either way. Tobacco gained 2 3 8 per cent, while Western Union and Missouri Pacific lost 3-4ai 5-8 per cent.

Bonds were firm in tone. The total sales were \(\frac{8}{2} + 237,000\).

CHICAGO.

CHICAGO.

Chicago, Feb. 17.—The wheat market showed an inclination to do better to day. Quite early in the session, in fact right at the start, shorts began to cover, whilst the disposition to hammer the market was less in evidence than it has been for some time. About noon there was a slump of a 1-2 cent on a break of a cent at St. Louis, but the loss was quickly regained and additional advances took place. May wheat opened from 744-8 to 1-4, sold between 733-44-8 and 743-4, closing at 745-8-5-8 cent higher than yesterday. Cash wheat was firm and half cent higher.

Corn—Corn was quiet, with prices ranging a little higher than at the close yesterday. Naturally the strength was a gift from wheat. May corn opened at 23 1-2a-58, advanced to 23 3-4, closing at 23 5-8a3-4, 1-8a1-4 cent higher than yester-lay. Cash corn was stendy, without material change in price.

Oats—The drift of prices of wheat and corn being in an upward direction oats, in the absence of anything special, showed firmness. May oats closed unchanged from yesterday. Cash oats were about 1-4 cent higher on the light receipts.

DENSITY OF POPULATION.

The Most Thickly Peopled Spot In the World Is In New York City.

In The Century is a paper by Mrs. Schuyler Van Rensselaer on "Places In New York," in the course of which the author says: Cross the Bowery now, and you will enter the famous Tenth ward, a true tenement house district, forming part of the most crowded city quarter in all the world. As a whole, the city of New York below the Harlem river (the Island of Manhattan) is more densely peopled than any other city in the world, counting 143.2 persons to the parts above the Harlem, too, is concentrated upon 711 acres of ground. Here, on the lower east side of our town, in the summer of 1894, there dwelt some 324,000 souls, averaging 476.6 to the acre, and a certain section of this great area, the Tenth ward, showed a local acre average of 626, 26. The most thickly peopled spot in Europe is the Jew quarter in Prague, but it is only one-fifth as large as our Tenth ward, while it shows a density scarcely greater than that of the whole of the 711 acres in which the Tenth ward is contained-485.4 per

Nor is this the worst that our 711 acres can reveal. Sanitary district A of the Eleventh ward, bounded by Avenue B and Second street, Columbia, Rivington and Clinton streets, contains 32 acres, and in the summer of 1894 each of them bore 986.4 human beings. This is the very thickest, blackest coagulaof humanity in all the known world. No European place of anything like the same size even approaches it, and its nearest rival is a part of Bombay where the average population over an area of 46.06 acres is 759.66.

Yet it should be remembered that, while our acres are thus more heavily burdened than any others, places can be found in European as in Asatic towns where people are more uncomfortably crowded within doors. There the houses are low, but New York tenements are very lofty, and thus our floor space to the acre is much more extensive. More over, although we are now more crowd ed than ever before, our sanitary state steadily improves. During the decade which closed with 1874 our death rate was 30,27 per 1,000. During the one which closed with 1894 it was 24.07.

First Session of This Important Body at Washington.

Washington, Feb. 17.—The first session of the National Congress of Mothers, which has attracted such wide attention all over the United States, was opened at the Arlington Hotel at 10 o'cleck this morning. Rev. W. II. Milburn, of Washington, the blind chaplain of the United States Senate, delivered the opening prayer.

States Senate, delivered the opening prayer.

Mrs. Theodore B. Birney, president of the congress, made the address of welcome. Speaking of the objects of the congress, she said it was for the culture and advancement of children and mothers. The child question was the one most worthy of attention, and as this was the woman's era, when so! much arose to distract women from the care of their children, this congress had taken upon itself to try to point out the way in which children should be brought up. The desire was that the coming generation of mothers should have a college education and a general knowledge of the needs of childhood in order that they might better be able to direct the footsteps of the young. In closing, Mrs. Birney said:

"This is no sex movement, but one in which sons and daughters, fathers and mothers, should be interested alike."

Mrs. Mary Lowe Dickinson, New York city, responded. She spoke of the good results of kindergarten work. "Mrs. Dickerson also referred to the great wrong often committed by fathers in allowing the mother to assume all the responsibility of rearing the children, when it was equally as important to teach a child the ways of the worl!

After Mrs. Dickinson's address the meeting adjourned until 2:20 this afternoon.

MANY NAVAL ORDERS.

MANY NAVAL ORDERS.

Washington, Feb. 17.—The following naval orders were issued to-day: Lieut. Wm. S. Sims has been ordered as naval attache at Paris, St. Petersburg and Madrid, relieving Lieut. Commander Raymond P. Rodgers, cornerly chief of the intelligence office, who has held the position for nearly five years. Lieutemant Sims has recently been on duty with the receiving ship Richmond at League Island, from which he will be detached to go abroad by steamer of the 24th instant. During the China-Japan war Lieutemant Sims was specially detailed with the Asiatic squadron as intelligence officer to keep the Navy Department informed of the naval operations, a duty which he performed with such signal ability that he was chosen for similar offices in Europe. Assistant Surgeon J. C. Rosenbleuth will be detached from the Raleigh February 20 and transferred to the Massachusetts. Assistant Paymaster J. B. Fyffe, newly appointed, is assigned to the receivingship Wabash at Boston, for instruction. Boatswain W. Carter and D. Ward are placed on the retired list.

HAD NO INFORMATION.

New York, Feb. 17.—The directors of the American Sugar Refining Company held a meeting this afternoon. After the adjournment Treasurer Searles declined to state what action the directors took regarding the request of the Lexow committee for permission to examine the company's books. John E. Parsons also declined to make any statement, saying that it would be contempt to the committee for him to do so.
